OBJECTIVE

Computer Science undergraduate skilled in **Python, SQL, Power BI & Data Analytics**. building interactive dashboards and data driven solutions.

Seeking a **Data Analyst Internship** to apply analytical , visualization , and problem solving skills in real world projects.

EDUCATION

ARYA COLLEGE OF ENGINEERING, RTU KOTA

Jaipur, India

Bachelor of Technology in Computer Science

May 2027

Cumulative CGPA: 8.5/10

Relevant Coursework : SQL & Database Systems, Data Analysis & Visualization, Machine Learning, Data Structures & Algorithms

TECHNICAL SKILLS

- **Programming & Querying:** Python, SQL, C++, OOPs
- **Data Analysis & Statistics:** Pandas, NumPy, Excel, EDA, Data Cleaning, Hypothesis Testing, A/B Testing
- **Visualization & BI:** Matplotlib, Seaborn, Power BI, Tableau
- **Databases & Cloud:** PostgreSQL, MySQL, MongoDB, AWS Basics
- **Tools & Technologies:** Git, GitHub, Jupyter Notebook, VS Code, Google Colab
- **Core Concepts:** Data Structures & Algorithms, DBMS, Statistics

SOFT SKILLS

Problem Solving · Analytical Thinking · Team Collaboration · Communication · Attention to Detail · Self-Learning

INTERNSHIP

INTERN CERTIFY

Python Developer Intern

Jun 2025 – Aug 2025

- Cleaned and preprocessed dataset using Python to improve data quality
- Performed exploratory data analysis (EDA) to identify trends and patterns.
- Generated analytical reports to support data-driven insights

YBI Foundation

Python Developer Intern

Virtual

Oct 2025 – Nov 2025

- Performed data cleaning, transformation, and preprocessing in Python to enhance dataset quality.
- Conducted exploratory data analysis (EDA) to uncover meaningful trends, patterns, and insights from data.
- Created analytical reports and summaries to enable informed, data-driven decision-making.

PROJECTS

Covid-19 First Wave Dashboard - INDIA

Tech Stack: Excel, Python, SQL, Power BI

Jan 2026

- Analyzed India's COVID-19 first-wave data to identify trends in cases, recoveries, and fatalities.
- Cleaned and processed datasets using Excel and SQL to ensure accurate and reliable analysis.
- Built an interactive Power BI dashboard to visualize insights and support data-driven understanding.

Sales, Revenue, and Customer Insights Dashboard

Tech Stack: Excel, Python, SQL, Power BI

Dec 2025

- Performed end-to-end data analysis using Python, SQL, Excel, and Power BI on sales and customer datasets.
- Built KPIs and complex SQL queries to analyze revenue trends and customer behavior
- Designed interactive Power BI dashboards to deliver actionable business insights.

CERTIFICATION

Data Analysis with Python – IBM

Simulated real-world project, analysis task and insights generation

Career Essentials in Data Analysis – Microsoft & LinkedIn

Hands-on training in Python –based data analysis and visualization

ACHIEVEMENTS

Competitive Programming: Solved 200+ SQL and DSA problems on LeetCode, HackerRank, and GeeksforGeeks.

Technical Learning: Earned multiple certifications in Data Analytics, Python, and Power BI through hands-on projects and training.
